

Reese St Amant

TECHNICAL WEB LEAD | ACCESSIBILITY

Technical web lead managing 130+ WordPress properties. Leads WCAG/ADA remediation, performance optimization, and technical SEO, combining engineering with marketing strategy to deliver accessible, high-performing sites.

CORE SKILLS

- **WordPress & Performance:** Managing custom frameworks and optimization strategies for high-traffic environments.
- **Technical Leadership:** Driving complex troubleshooting and site audits to ensure high-velocity project delivery.
- **Strategy & Conversion:** Scaling demand via technical SEO, Google Analytics, and high-performance page engineering.

WORK EXPERIENCE

Technical Web Lead

Paradigm Oral Health | 05/2023 – Present

- Replaced a paid monitoring tool at zero cost — engineered a scalable Node.js system tracking uptime, PageSpeed, and SSL across 130+ WordPress sites with automated Slack alerts and monthly reporting.
- Manage 130+ web properties, utilizing custom WordPress frameworks to increase production velocity by 50%.
- Led ADA accessibility remediation across 130+ WordPress properties, establishing a WAVE audit framework and GitHub RC fix pipeline that improved average site scores by 46%, surpassing our internal target.
- Direct system stabilizations for legacy codebases, yielding a 70% increase in load speeds and 60% rise in organic traffic.
- Serve as Technical Liaison: Translating complex Figma/XD requirements into clean, maintainable code.

Web Developer - Designer - Manager

Drift Media Solutions | 11/2022 - 05/2023

- Marketing Collaboration: Partnered with marketing teams to align landing page structure and messaging with campaign goals, supporting lead-generation initiatives.
- Front End Development: Engineered custom WordPress themes and high-conversion landing pages for diverse client verticals.
- Performance Optimization: Implemented technical SEO and caching strategies to improve Core Web Vitals across client portfolios.

Web Developer

Ad Leverage | 04/2022 - 11/2022

- Technical Troubleshooting: Resolved performance bottlenecks and security vulnerabilities for 18 multi-million dollar WordPress accounts.
- Promoted within 3 months to lead junior staff onboarding; deployed a 10-page project two weeks early with a 30% baseline improvement in site performance.
