

Reese St Amant

Web Developer

Results-driven Technical Web Lead engineering high-performance digital solutions across design, development, and infrastructure. Specialist in custom WordPress implementations, translating Figma and XD requirements into clean, maintainable code. Expert at synchronizing creative vision with technical execution, drawing on a career of high-stakes production management to deliver with precision and velocity at scale.

CORE SKILLS

- **WordPress & Performance:** Managing custom frameworks and optimization strategies for high-traffic environments.
- **Technical Leadership:** Driving complex troubleshooting and site audits to ensure high-velocity project delivery.
- **Strategy & Conversion:** Scaling demand via technical SEO, Google Analytics, and high-performance page engineering.

WORK EXPERIENCE

Web Developer – Project Manager

Paradigm Oral Health | 2023 – Present

- Replaced a paid monitoring tool at zero cost — engineered a scalable Node.js system tracking uptime, PageSpeed, and SSL across 60+ WordPress sites with automated Slack alerts and monthly reporting.
- Manage 60+ web properties, utilizing custom WordPress frameworks to increase production velocity by 50%.
- Direct system stabilizations for legacy codebases, yielding a 70% increase in load speeds and 60% rise in organic traffic.
- Serve as Technical Liaison: Translating complex Figma/XD requirements into clean, maintainable code.
- Maintain API Integrations: Developing RESTful API connections to synchronize data across disparate marketing platforms.

Web Developer - Designer - Manager

Drift Media Solutions | 11/2022 - 05/2023

- Front End Development: Engineered custom WordPress themes and high-conversion landing pages for diverse client verticals.
- Performance Optimization: Implemented technical SEO and caching strategies to improve Core Web Vitals across client portfolios.

Web Developer

Ad Leverage | 04/2022 - 10/2022

- Technical Troubleshooting: Resolved performance bottlenecks and security vulnerabilities for 18 multi-million dollar WordPress accounts.
- Leadership: Promoted within 3 months to lead junior staff onboarding and technical troubleshooting methodologies.
- High-Velocity Delivery: Deployed a 10-page project two weeks early with a 30% baseline improvement in site performance.
